

What you need to know

 The Medical Assisting program provides education for entry-level clinical and/or administrative Medical Assistants to work in clinics, providers' offices, and health centers. Our graduates are highly skilled, ethical, responsible, and requested by most local healthcare employers! Remember, alongside every great provider is an even greater MA.

 There is no application for the program. Apply to SRJC and complete any prerequisites before registering for the core classes. There are health requirements for clinical and administrative internships/externships.

What people are saying about this program

 "Awesome support from my fellow classmates and fantastic instructors...encouraging me that I can do anything I set my mind to."

 "It's honing in on my people skills through compassion, understanding and acceptance."

 "Growing up, I would always admire and respect those who work in the healthcare field. Now that I have become a part of the Medical Assisting program I have gained even more respect and admiration towards medical professionals because of the extensive knowledge, training, and determination required to become a medical professional."
